**FINAL****TransFirst® Class A Certifies, Rolls out Hypercom Optimum Payment Terminals**

**SCOTTSDALE and DALLAS, April 21, 2009** – Hypercom Corporation (NYSE: HYC) today announced that TransFirst, a leading provider of transaction processing services and payment enabling technologies, has Class A certified and will market Hypercom's high security Optimum T4205 and T4220 payment terminals to its more than 160,000 merchant customers throughout the United States.

"Our customers want products that help them grow their business, and Hypercom's Optimum card payment terminals backed with our superior customer service and training will help them do just that," said Steve Cadden, Chief Operating Officer, TransFirst.

"Our customers demand products that provide advanced security and an array of features required to support the ever expanding products and services being delivered through the payment system. Hypercom's Optimum terminals have been specifically developed to provide a safe shopping experience for consumers, reliability for merchants and the lowest total cost of ownership for our customers, said Bernie Frey, Vice President of North American Sales, Hypercom Corporation. "TransFirst's certification is the latest in a series of significant processor certifications for these terminals and another terrific endorsement of our company and our products."

Hypercom's high security Optimum T4200 product family consists of eight powerful 32-bit multi-application devices that share the same platform, user interface and software toolkit to maximize efficiency, application portability and offer customers a broad range of options to serve any market need.
